

Premium residential doors

High-End Residential Doors & Hardware

The Satellite Residential Door Range is endless and is one of the largest in Australia. Here, we offer you just a selection of what we have available.

Satellite's quality range of finishes is so versatile we can often match existing designs or accommodate any ideas you may have to produce custom made doors.

To complement our beautiful range of doors and timber veneers, we offer a selection of high-end door hardware imported from Italy.
